BY TERE GARCIA

The Miami-Dade Expressway Authority recently mailed over 60,000 checks as part of the Frequent Drivers Rewards Program totaling \$4.8 million this year.

In less than a week of the rewards checks being received, almost half were cashed, showing the importance of this money to the community, particularly during the holiday season.

Those receiving checks at the December MDX Board meeting included Frank Crawley of Cool Breeze Air Conditioning, a local busi-

ness owner with a fleet of 87 vehicles driven by sales and service employees.

"This is an important program for us as a local business because it reduces our costs," Crowley said. "We appreciate MDX creating this program locally to provide savings to the business community that drive their expressways."

Also attending the board meeting to receive their checks were Eladio Crespo, an Uber driver, and William Daniel Caicedo, a daily commuter, both members of the program.

The MDX Governing Board established the Frequent Drivers Rewards Program to reduce tolls paid by daily commuters, and small local

businesses on the MDX system. Only tolls paid on the MDX local expressways are eligible for refund — the 836/Dolphin Expressway, 112/Airport Expressway, 874/Don Shula Expressway, 878/Snapper Creek Expressway and 924/Gratigny Parkway. The state-owned Turnpike, I-95 and Palmetto tolls are not eligible for reimbursement.

Open enrollment for new member registration begin on Jan. 18, 2022. Existing customers also will be able to log in to their Frequent Drivers Rewards account, change address, add transponders or check for eligibility for this year.

Visit www.mdxway.com to obtain more information on the program.
